

Referral Processing Notice

To ensure every referral is processed accurately, please allow **up to 5 business days** for our office to complete and submit your referral request.

Please note that **an office visit may be required before a referral can be issued**, depending on your medical condition, insurance requirements, or if your provider determines that an evaluation is needed.

It is the **patient's responsibility to contact the specialist's office to ensure they are accepting new patients and participate with your insurance**. Once a referral has been submitted, **our office is unable to issue a second referral** if the selected specialist does not accept your insurance or is not accepting new patients.

We appreciate your patience and understanding as we work to provide timely, quality care. If you have not heard from our office or the specialist after this timeframe, please contact us for an update.

Thank you for choosing Revive Integrative Medicine.
